Musical Match Up

Drag a line between the musical instrument and their correct name

Harp

Piano

Drum set

Guitar

Trumpet

DIY Rainstick

You can make a rainstick out of basic household supplies. They are easy to make and sound like rain!

Things you will need:

- A paper towel roll
- Tape
- Construction paper
- Scissors
- Marker
- Rice, popcorn kernels (or something similar)
- Bits and bobs to decorate

1. Cover one of the ends with tape and then cover with construction paper. A lot of shaking will cause the paper to rip so make sure you use enough tape
2. Before taping the other end, put a large handful of rice or popcorn kernels into the tube
3. Tape the other end and decorate the entire tube in any way you would like

Bonus: You can add a spiralled pipe-cleaner into the tube to make the contents fall down the tube slower, making the sounds it creates last longer!

Answers
