

COUNTRY PARK

Make your own

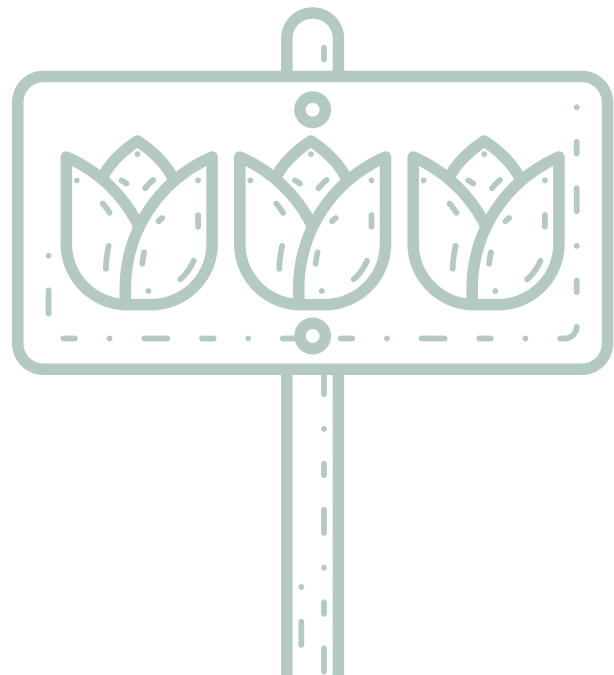

Indoor Garden

Bring the outdoors inside with this fun challenge!

Go for a walk, even if it is just around your garden and gather some supplies to make your indoor garden come to life!

You will need:

- 🍃 A small square of wood or tough cardboard for the base
- 🍃 Green felt or other fabric to cover
- 🍃 An old CD, scraps of fabric, tissue paper, cardboard and other bits and pieces
- 🍃 Bits and bobs from outside

Go for a walk and find:

- 🍃 Around 15 small pebbles/stones
- 🍃 Some bark
- 🍃 A handful of twigs
- 🍃 Dry moss

1. Cover your base board in green felt to look like grass
2. Add your tissue paper balls to look like flowers and other plants
3. Add your dry moss balls to look like bushes, add them to twigs to make them trees
4. Place your CD and add your pebbles around it. Add some tissue paper or netting in the middle to make a fountain
5. Use your bark to make a bench by gluing the seat together and adding legs

Bonus: Make a miniature bird box out of left over bark or cardboard and stick it on to a twig
