

COUNTRY PARK

Enchanted Crafts

Bring your favourite fairy tales to life with these fun crafts!

Make a magic mirror, toadstool house lantern or your very own fire breathing dragon and let your imagination take over!

Magic Mirror

Things you will need:

- Cardboard
- Paint (or coloured paper/card)
- Gemstones (or other decoration)
- Tinfoil
- Glitter (optional)
- Scissors
- Glue

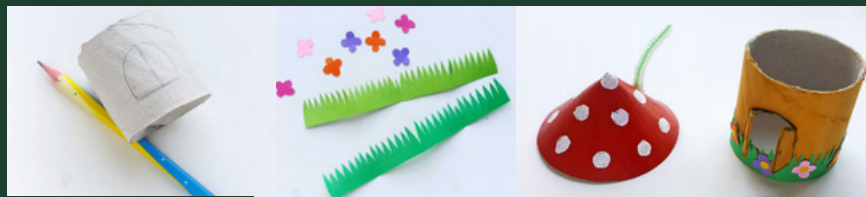

1. Cut the shape of the mirror out of cardboard to form your base.
2. Cut an oval piece of thinner cardboard (we recommend a cereal box). This will be the glass part of the mirror.
3. You may want to use paint to decorate the base of the mirror or you can use coloured paper/card.
4. Glue some tin foil to the smaller part and stick it to the mirror base as shown in the picture.
5. Decorate your magic mirror with anything you want. You can use tissue paper, gemstones, glitter, etc.
6. When the front is dry, flip it over and decorate the back too!

Toadstool House Lantern

Things you will need:

- Coloured card
- Toilet paper roll
- A pencil
- Black marker
- Scissors
- Glue
- Optional: Paint, LED light

1. Cut a toilet paper roll in half, you can use a whole roll if you want taller houses or cut it to any height you want. Here is when you can paint the house/decorate it with coloured card/paper. Wait for it to dry before continuing.
2. Use a pencil to draw a window onto the roll and ask an adult to cut out the centre, top and bottom of the window, keeping the outer edges intact so it can open.
3. Cut out some grass from craft paper by drawing zig zag shapes across the bottom of the page like you can see in the picture. Glue to the bottom of the house.
4. Decorate the house in any way you like, add flowers to brighten it up!
5. Cut out a circle of coloured craft paper (or paint it). You want the circle to be big enough to make a cone for the roof. Add your mushroom details.
6. Make it into a cone by cutting a slit from the outer edge towards the centre of the circle, overlapping the two sides and glue together.
7. Cut out a small piece from the flexible part of a straw to make the chimney and attach to the roof.
8. Your toadstool house is complete! You can add an LED light to make it into a lantern if you wish!

Fire Breathing Dragon

Things you will need:

- Toilet paper roll
- Coloured paper
- 2 medium, 2 small pompoms (or use tissue paper)
- More tissue paper in red orange and yellow
- Glue
- Scissors
- Optional: Googly eyes

1. Cut the coloured paper to the size of the roll so it will completely cover it and glue it to the roll.
2. Attach your googly eyes to your medium size pompoms. If you don't have pompoms, you can use tissue paper and if you don't have googly eyes, you can use a black marker pen to make the pupils.
3. Attach the pompoms to the tube as shown in the picture.
4. Cut your red orange and yellow tissue paper into pointy strips to make your flames.
5. Glue the strips to the inside of your tube as shown.
6. Blow into the tube to make your dragon come to life!
